

Purvi Solanki

Software Engineer | Full-Stack Developer | React.js | Node.js | REST APIs | AWS / OCI

+91 7974643228 | solankipurvi.works@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Software Engineer with **2+ years of experience** designing, developing, and deploying scalable **full-stack web applications** and **RESTful APIs** using **React.js, Node.js, Express.js, JavaScript (ES6+), and cloud platforms (AWS, Oracle Cloud Infrastructure)**. Strong foundation in data structures & algorithms, object-oriented programming, microservices architecture, and system design. Consistently improved application performance, reduced manual effort, and delivered production-ready features within the full software development lifecycle (SDLC) in fast-paced Agile environments. Skilled in leveraging AI-assisted development tools to accelerate delivery and improve code quality.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++, SQL

Frontend: React.js, Next.js, Redux Toolkit, HTML5, CSS3, Bootstrap, Material-UI, Responsive Web Design

Backend: Node.js, Express.js, FastAPI, REST APIs, Microservices Architecture, Object-Oriented Programming (OOP)

Databases: MongoDB, MySQL

Cloud & DevOps: AWS, Oracle Cloud Infrastructure (OCI/OIC), Docker, Kubernetes, CI/CD, Git, GitHub, Postman, Linux

Core CS & Concepts: Data Structures & Algorithms, System Design, Object-Oriented Design, JWT/OAuth Authentication, Unit Testing, Debugging, Agile, Scrum

AI & Productivity Tools: Claude, Cursor AI, ChatGPT

EXPERIENCE

Capgemini

12/2024 – Present

Software Developer

Pune, Maharashtra

- Engineered full-stack enterprise modules for the **Ballester Hermanos Inc. (BHI)** modernization project using **React.js, Node.js, Express.js, and RESTful APIs**, powering core business-workflow automation used by 500+ daily users.
- Designed 15+ responsive UI components, interactive forms, and real-time dashboards using **React.js**, integrating scalable **microservice-oriented** backend services to streamline enterprise operations and cut manual data-entry effort by nearly 20%.
- Optimized backend workflows, database queries, and third-party API integrations, improving application reliability and reducing manual processing effort by nearly 30%.
- Collaborated within **Agile/Scrum** teams of 6+ developers on sprint planning, code reviews, debugging, and production deployments, consistently delivering maintainable, scalable solutions on schedule.
- Strengthened release quality by improving **CI/CD** pipelines and **Git**-based version control workflows, and expanding unit test coverage, reducing production defects by nearly 15% across sprint releases.

Fin Coopers India Pvt Ltd

07/2024 – 11/2024

Front-End Developer

Indore, Madhya Pradesh

- Engineered and maintained **3+** full-stack financial modules using the **MERN stack** (MongoDB, Express.js, React.js, Node.js) for enterprise fintech platforms serving 200+ daily active users.
- Improved UI responsiveness and state-management efficiency by nearly 25% through optimized **React.js** components, **Redux**, and **REST API** integration workflows.
- Developed and maintained **Finexe 2.0** and multiple corporate websites, enhancing functionality, cross-browser compatibility, and overall user experience.
- Partnered with backend and QA teams to debug and validate 20+ production issues per release cycle, cutting critical bug turnaround time by nearly 30% and improving release stability.

PROJECTS

Finexe 2.0 | Next.js, React.js, Redux, JavaScript, REST APIs, HTML5, CSS3

- Architected a production-grade loan management & ERP platform with multi-step loan-application flows, EMI-tracking dashboards, and HRMS & finance interfaces, enabling seamless loan processing for 1,000+ customers and farmers.
- Implemented **RBAC**-based UI, real-time analytics dashboards, and automated workflow screens with secure data handling, ensuring compliance and real-time decision-making support.
- Integrated RESTful APIs for data rendering and pagination, reducing average page-load latency by nearly 20%.

Authentication System | Node.js, Express.js, MongoDB, JWT, REST APIs

- Developed a secure authentication backend using **Node.js, Express.js, MongoDB, and REST APIs** with modular, object-oriented design principles.
- Implemented **access tokens, refresh tokens, HTTP-only cookies, JWT-based authentication, and session management**, protecting all API routes from unauthorized access.
- Designed reusable middleware for authentication, authorization, request validation, and centralized error handling, cutting duplicate logic by roughly 40%.

EDUCATION

Acropolis Institute of Technology and Research

2020 – 2024

Bachelor of Technology in Computer Science & Information Technology

CGPA: 8.4

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Solutions Architect – Associate (AWS)
- Oracle Cloud Infrastructure 2025 Certified Application Integration Professional (Oracle University – 1Z0-1042-25)
- Oracle Cloud Infrastructure 2025 Certified Architect Associate (Oracle University – 1Z0-1072-25)
- Front-End Developer Capstone (Meta, via Coursera)
- Solved 500+ problems on LeetCode, CodeChef, and GeeksforGeeks, strengthening Data Structures & Algorithms proficiency
