SUMMARY

Software Engineer with 2+ years of experience building scalable full-stack applications, **REST APIs**, and cloud-based integrations using **React.js**, **Node.js**, **Express.js**, **Oracle Cloud**, and **AWS**. Experienced in object-oriented programming, and Agile development. Skilled in developing enterprise applications and leveraging and developing AI-assisted workflows using tools such as **ChatGPT**, **Claude**, **Antigravity** and **Cursor AI** to accelerate development cycles and improve engineering productivity.

EXPERIENCE

Capgemini

Dec 2024 – Present

Software Developer

Pune, Maharashtra

- Contributed to the Ballester Hermanos Inc. (BHI) modernization project by developing full-stack enterprise modules using **React.js**, **Node.js**, **Express.js**, and **RESTful APIs** for workflow automation and business operations.
- Built responsive forms, dashboards, and API-driven functionalities while integrating scalable backend services and **microservice-oriented** modules using **Oracle Integration Cloud (OIC)** and **Oracle Cloud Infrastructure (OCI)**.
- Developed and optimized backend workflows, API integrations, and database operations, improving application reliability and reducing manual processing effort by nearly **30%**.
- Developed and utilized AI-assisted development workflows using **Claude**, **Cursor AI**, and **ChatGPT** to improve development velocity, automate repetitive tasks, and enhance code quality.
- Collaborated in Agile teams with **6+ developers** on feature development, debugging, code reviews, and production deployments to deliver maintainable and scalable solutions.

Fin Coopers India Pvt Ltd

Jul 2024 – Nov 2024

Front-end Developer

Indore, M.P

- Developed and maintained full-stack applications using the MERN stack (MongoDB, Express.js, **React.js**, **Node.js**) for financial and enterprise web platforms.
- Improved UI responsiveness and state management efficiency by nearly **25%** through optimized React.js components and **REST API** integration workflows.
- Developed and maintained **Finexe 2.0** and multiple corporate websites, enhancing functionality, performance, and overall user experience.

PROJECTS

Finexe 2.0 | Next.js, React.js, Redux, JavaScript, HTML, CSS

- Built a production-grade loan management & ERP platform with multi-step loan application flows, EMI tracking dashboards, and HRMS & finance interfaces using **React.js** and **Javascript**, enabling seamless loan processing for **1000+ customers** and farmers.
- Implemented RBAC UI, real-time analytics dashboards, and automated workflow screens with secure data handling, ensuring compliance and real-time decision-making support.

FoodHub | Node.js, Express.js, MongoDB, Mongoose, JWT

- Designed and developed RESTful APIs using Node.js and Express.js following modular and object-oriented design principles.
- Implemented JWT authentication, CRUD operations, and MongoDB schema optimization for scalable backend performance.
- Built microservice-ready backend modules for restaurant and order management workflows.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Solutions Architect – Associate (AWS)
- Oracle Cloud Infrastructure 2025 Certified Application Integration Professional (Oracle University – 1Z0-1042-25)
- Oracle Cloud Infrastructure 2025 Architect Associate (Oracle University – 1Z0-1072-25)
- Front-End Developer Capstone (Meta via Coursera)
- Solved 500+ problems on LeetCode, CodeChef, and GeeksforGeeks.
